TASMANIAN NURSES AND MIDWIVES

TASSIE THE LOWEST PAID

NURSES AND MIDWIVES SHOULD BE RECOGNISED

The graph below highlights the significant pay gap between Tasmanian nurses and midwives compared to other states and territories. With a 2% increase in the first year of the 2018 agreement we will be the lowest paid nurses and midwives in Australia.

ANMF will be fighting for nurses and midwives to receive competitive wages and address workload concerns in the upcoming enterprise agreement.
