

ANMF NEWSFLASH

Royal Hobart Hospital - Ward 2A

Thank you to Ward 2A Members

The Australian Nursing and Midwifery Federation Tasmanian Branch (ANMF) would like to sincerely thank all Ward 2A members who attended the open meeting held during the in-service on Thursday 15 January 2026. Your participation and engagement were greatly appreciated.

The meeting provided an important opportunity to discuss the benefits of ANMF membership, including access to professional indemnity insurance and a range of discounts available through the Member Advantage Portal. Members also discussed key matters relating to the current Enterprise Agreement (EA) and shared ideas to help inform the ANMF's Log of Claims (LoC) for the next round of negotiations. Further discussion focused on the industrial action options available to members should negotiations stall, and the powerful message that collective action sends — strength in solidarity. The ANMF has been asked to return in the near future to provide both current and new staff with the opportunity to take part in these important discussions, and we look forward to continuing the conversation.

Thank you again to all members who attended. Please continue to complete member surveys as they are circulated — your responses directly inform what the ANMF advocates for on your behalf.

If you have any questions or wish to raise further concerns, please contact your ANMF representative.

The ANMF Tasmanian Branch is 8000 plus members strong! Supporting nurses, midwives, and care workers as the only union in Tasmania employing nurses, midwives and care workers to represent members. This is why our Organisers and Member Support Team are uniquely positioned to understand your experiences, represent you in your workplace, and offer industrial advice that's relevant to you.
