

ANMF NEWSFLASH

North West Private Hospital Rivendell

Consultation Regarding Potential Use of Rivendell Beds

The Australian Nursing and Midwifery Federation Tasmanian Branch (ANMF) understands that discussions are continuing regarding a proposal for Rivendell beds to be leased to support mental health inpatient services following the fire at Spencer Clinic. At this stage, discussions are ongoing and no final decision has been made.

The ANMF is actively engaged in consultation processes and is closely monitoring developments to ensure members' interests are protected throughout any transition.

Should the consultation process result in Rivendell beds being leased for Spencer Clinic patients, the ANMF will work to ensure that members' industrial rights, conditions of employment, and entitlements are fully preserved. This includes advocating for transparent consultation, appropriate staffing arrangements, and the protection of existing employment conditions.

The ANMF will continue to represent members in all consultative forums to ensure your voice is heard during these discussions and that any proposed changes are implemented fairly and safely.

If you have questions, concerns, or require advice regarding the potential impact on your position or workplace, please contact your ANMF organiser or workplace delegate.

We will continue to provide updates as further information becomes available.

The ANMF Tasmanian Branch is 8000 plus members strong! Supporting nurses, midwives, and care workers as the only union in Tasmania employing nurses, midwives and care workers to represent members. This is why our Organisers and Member Support Team are uniquely positioned to understand your experiences, represent you in your workplace, and offer industrial advice that's relevant to you.
