# SCRAP THE 2% CAP

TASSIE NURSES AND MIDWIVES THE LOWEST PAID!

This graph shows the percentage wage increase for each state and territory in Australia from 2015 - 2017. If the Tasmanian Government does not scrap the 2% cap in the 2018 negotiations we will remain the lowest paid nurses and midwives in the country.

We work just as hard, so why are we worth so much less?
