

ANMF/HERC CPD SESSION

CLINICAL MASTER CLASS

The nursing profession covers a range of specialty areas with a variety of different skills required to carry out quality patient care. The Clinical Master Class is a new ANMF/HERC CPD session developed specifically to address these varied areas of educational interest and develop skills within the nursing population of Tasmania. The education provided during these sessions directly addresses suggestions from nurses in Tasmania, and can be applied to any practice setting.

.....

This four hour CPD session will help you build on your existing skills, deepening your understanding of some common clinical presentations and treatment options to better equip you in providing confident, patient-centred care.

During the half day course, you will gain skills to:

- Better interpret basic electrocardiograms
- Complete a primary and secondary survey
- Understand the mechanisms of shock
- Identify common rashes in the paediatric patient
