

ANMF/HERC CPD SESSION

MANDATORY TRAINING

This study day will allow participants to complete the basic mandatory training requirements needed to work in the healthcare industry. In the morning we will focus on the five moments of hand hygiene, along with theory based learning on the concept of aseptic technique and safe manual handling principles. In the afternoon we will move onto practical activities involving medication management and basic life support, with an assessment of both.

Topics covered and skills that will be assessed on this full day session include:

- **Hand hygiene**
- **Aseptic technique**
- **Medication management**
- **Basic life support**
- **Fire and emergency awareness**
- **Person centred care**
