*"The Transition to Practice program helped me start out my career in nursing on the right foot. It's a big and daunting leap from student nurse to nurse, but I never felt like I was tackling it alone. Probably the most valuable resource was the Graduate Coordinator, who I could rely on for advice and support when things were tough. We had paid study days, with theory and hands-on training, which gave me confidence in my practice on the ward. During study days we had the opportunity for group discussion and time to reflect on the journey. My experience was helped by the positive ward culture. During my training I had heard the phrase "nurses eat their young" but Calvary is not like that at all. I had two unit managers, two clinical facilitators, the graduate program coordinator, experienced level 2s and my peers all guiding and encouraging me along the way. The other grads themselves are a great support and still some of my closest friends. I would recommend the program to anyone!"*
