For suitable applicants interested in applying for a position, Calvary Hobart will be offering 12 month fixed term contracts, with a proposed split intake, commencing February and March 2024.

This handbook is designed to assist you with gaining employment as a Graduate Nurse in 2024 and we hope this will be a great resource throughout the recruitment process.

Perioperative Graduate Nurse Positions

Calvary Hobart offers a dedicated 12 month supported GNTP in the perioperative environment.

Our Graduate Nurses are comprehensively supported in theatre with dedicated clinical preceptors and educators who provide comprehensive learning in this specialised environment. Our theatre Graduates may have the opportunity to participate in the following theatre roles; Scrub/Scout Nurse or Anaesthetics/PACU (Post Acute Care Unit - Recovery).

Please note, allocation of Graduate roles in Theatre will be subject to the requirements of the department. You may be asked to indicate your preference at interview, however, no guarantee can be made on offer of allocated area.

- In perioperative nursing, your contact with conscious patients is limited. Briefly describe in what other ways perioperative nursing differs from ward based Nursing?
- Have you had clinical experience in the Peri-Operative environment? What is it that interests you about this area of nursing?

"The Transition to Practice program helped me start out my career in nursing on the right foot. It's a big and daunting leap from student nurse to nurse, but I never felt like I was tackling it alone. Probably the most valuable resource was the Graduate Coordinator, who I could rely on for advice and support when things were tough. We had paid study days, with theory and hands-on training, which gave me confidence in my practice on the ward. During study days we had the opportunity for group discussion and time to reflect on the journey. My experience was helped by the positive ward culture. During my training I had heard the phrase "nurses eat their young" but Calvary is not like that at all. I had two unit managers, two clinical facilitators, the graduate program coordinator, experienced level 2s and my peers all guiding and encouraging me along the way. The other grads themselves are a great support and still some of my closest friends. I would recommend the program to anyone!"
