

SAFE HOSPITALS SAVE LIVES

SHORT-STAFFED, OVERTIME AND DOUBLE SHIFTS

The ANMF is compiling data to highlight the current shortfalls in Tasmania's Public Hospital System and inform both the Government and the Media. This information will be used to raise public awareness and urge the Government to invest in the Nursing and Midwifery workforce to ensure Safe Hospitals Save Lives.

As part of the ongoing industrial action, ANMF members can record their Short-Staffed Shifts, Overtime and Double Shifts by scanning the QR code.

Ensure your voice is heard!
